A new administration and Congress mean new challenges for HME—along with many of the old ones returning: competitive bidding, threats to oxygen therapy, medical supplies, and power mobility.

Join your colleagues in Washington, D.C., June 1-3, 2009 for this important opportunity to tell new members of Congress about the value of homecare. AAHomecare will provide background materials for this key annual lobbying event for the HME sector. Speakers during the conference will include members of Congress and officials from CMS. If you don't speak up for homecare, who will?

AAHomecare... advancing positive homecare policy in Washington.
