

ADVOCACY THAT DELIVERS

\$3.6B

AAHomecare advocacy efforts secured nearly \$3.6 billion in relief for the HME community since 2024, tackling today's toughest challenges across the federal and state legislative and regulatory landscape and payer relations initiatives.

\$2.9B IN FEDERAL LEGISLATIVE & REGULATORY RELIEF SINCE 2024

- \$2.34B** Secured Medicare 50/50 blended rate relief for rural areas
- \$259M** Federal relief from Competitive Bidding Round 2028 carving out legacy products
- \$174M** Fixed the O2 "double dip" in reimbursement cuts impacting all non-bid areas
- \$102M** Excluded CRT manual accessories from Competitive Bidding pricing

\$748M IN PAYER RELATIONS & STATE RELIEF SINCE 2024

State specific wins in collaboration with our state association partners help set precedence for future advocacy work.

\$59M

Prevented State CURES Rate Reductions (CT, GA, KY, MO, NC)

\$80M

Secured Product Specific Wins (IL, MI, NY, NC, VA)

\$116M

Increased Medicaid Rates &/or Budget (CO, FL, GA, NC, VA)

\$157M

Policy & Coverage Enhancements (AL, AR, LA, MS, NV, NY, VA)

\$276M

Secured Medicaid Rate Floor Protections (GA, KY, IN, NC, OK, VA)

OTHER NOTABLE WINS:

● \$11M Prevent Reimbursement Cuts (CO, KY, MS)

● \$50M Elimination Sales Tax on Certain Products (IL, NC, SC, WA)

JOIN AAHOMECARE & AMPLIFY ADVOCACY EFFORTS

Our successes are a testament to the power of collective advocacy. By joining AAHomecare, you help amplify these efforts, driving positive change and securing the future of our industry.

Join us today and be a part of the force driving \$3.6 billion in relief and counting. Together, we can achieve even more.

REDUCING REGULATORY BURDENS ON SUPPLIERS (CMS & HHS)

Audits	Limited TPE reviews to only be for medical necessity so that suppliers don't fail a round for technical errors, thus improving the supplier experience and reducing the burden
CBP	Prevented the inclusion of legacy products (O2 therapy, wheelchairs, PAP, etc.) in the Round 2028 Remote Item Delivery (RID) model Competitive Bidding Program
Coverage	Expanded coverage for continuous glucose monitors (CGMs), power seat elevation, and intermittent catheters with changes to the local coverage determination (LCDs)
Orders	Allowed CPAP and RAD supplies to have a general description like "CPAP Mask" or "Mask – fit to comfort" on the Standard Written Order (SWO) so that suppliers don't have to get a new SWO for each change
Operations	Extended the timeframe for suppliers to contact beneficiaries for refills from 14 days to 30 days
Billing	Allowed CGM suppliers to provide and bill for supplies every 90 days, reducing the burden from every 30 days
Modifiers	Clarified that the CR modifier can continue being appended on claims impacted by the Covid-19 PHE even if the initial claim was submitted prior to the PHE to ensure continued patient access
HHA Consol. Billing	Worked with CMS to issue guidance requiring home health agencies (HHA) to update the patient status in the common working file (CWF) when the status was inaccurately flagged as still being a patient when the patient had been discharged.

REAL STORIES, REAL IMPACT

"AAHomecare's advocacy at the state and the federal level has empowered our company. They take our concerns for our patients and bring those concerns to the congressional representatives and to CMS for us. Without AAHomecare, I do not feel as a company my voice would be heard. If you are not a member of AAHomecare, you really need to get involved. I can't say enough about how great this organization is."

– Micheline Stephens, PCG Medical
