

## HME Providers Have Lost 19% in Rates Since 2023

Significant reimbursement cuts took effect on January 1, 2024, following the expiration of the Medicare 75/25 blended rate relief for non-bid, non-rural areas. The HME industry is now well into its second year without these relief rates, with some suppliers receiving payments as low as 45% of their previous reimbursement levels.

### HME STAKEHOLDERS: TAKE ACTION!

- Click [here](#) to send a message to your elected officials about the devastating impact these rate reductions have had on your business and the patients you serve.
- Ask your Representative to co-sponsor HR 2005 to reinstate the 75/25 relief through the end of the 2025 calendar year. This legislation would also positively impact payers whose rates are influenced by Medicare rates, including TRICARE and over 20 Medicaid programs.

### EXAMPLES OF REGIONAL RATE REDUCTIONS SINCE 12/31/23:
