

Examining the Impact of Medicare Audits on HME Suppliers

Results of AAHomecare Audit Key Survey, 4th Quarter 2016

April 2017

Audit Key Background

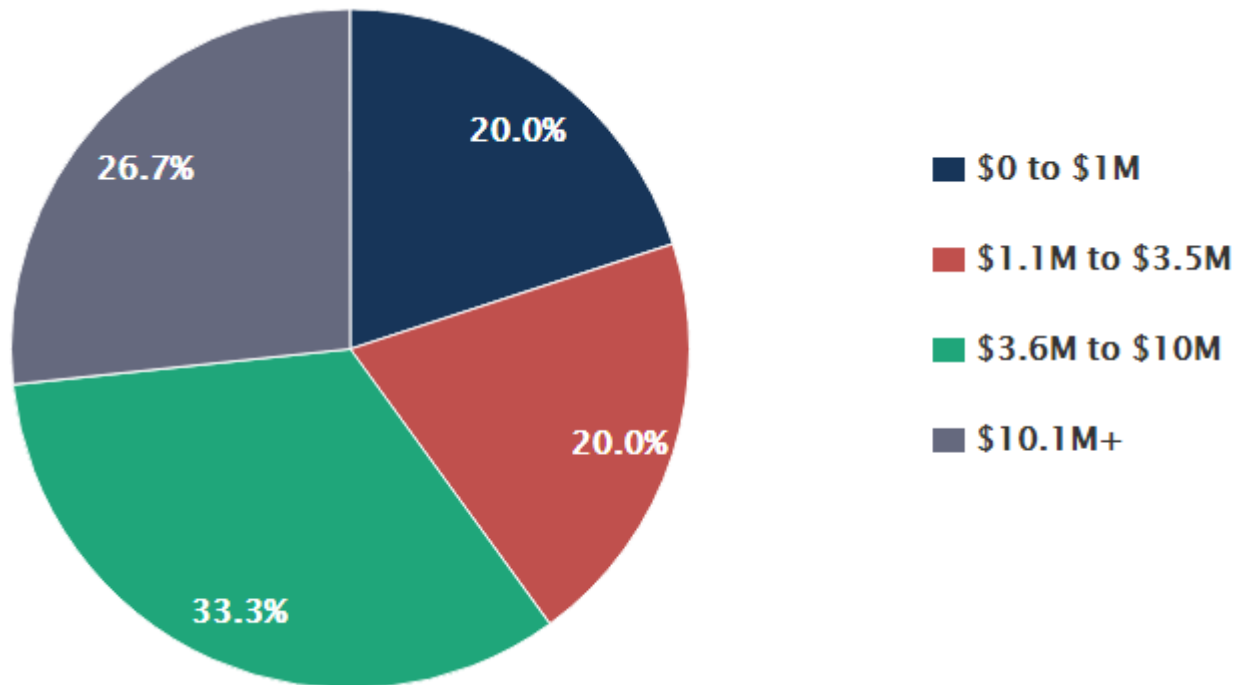

- AAHomecare created the Audit Key—a free, web-based survey to quantify the impacts of audits and appeals to present compelling data to encourage change.
 - Suppliers use AAHomecare’s online survey application, Audit Key (WWW.HMEAuditKey.org), to submit their data with audit and appeal experience.
 - Survey questions are designed to collect cumulative audit and appeal experience data going back as far as 10/1/15.
 - Survey registration information and Audit Key support can be accessed at support@HMEAuditKey.org or 1-844-HME A KEY.

Executive Summary

- This is the fifth quarter of data which includes audit and appeal information from 10/1/15 through 12/31/16.
- With 5 quarters of data now collected, the survey is gaining momentum.
- The industry needs all suppliers to participate—regardless of the number of audits you are receiving.
- With increased confidence levels in the data, the industry will be able to tell a compelling story about the audit and appeal experience of suppliers.
- Today's results show more participation is needed and, will yield critical data!
- Data analysis shows similarities between all sizes of suppliers, dispelling the myth that large or small suppliers experience more or less audits.
- **PARTICIPATE NOW!**

Participating Suppliers Represented a Cross Section of Net Revenue

Distribution of Audit Key Participating Suppliers by Net Revenue Range - Quarter 4, 2016

Note: Response Rates vary by Quarter

Note: Current results are based on a limited # of suppliers data and is not a true representation of the industry.
